MR. HUGH E. BEATTIE
SUPERINTENDENT OF SCHOOLS

September 2017

Dear Lakeland Families and Friends,

It is with great enthusiasm that I welcome everyone back to the 2017-18 school year here at Lakeland Regional High School. Our summer has been a bustling, yet very productive season. Revised procedures, new programs, and a variety of facility improvements will greet our students upon their return to school. Our expectations continue to grow and we want to give our students every opportunity to meet them.

Over the summer, programs continued to flourish. Lakeland students joined peers from a variety of other districts to attend various programs that helped in credit recovery so they could face the new school year on target for graduation. With the help of the Northern Region Educational Services, Extended Year and Summer School, programs were available to help students retain learning and recover credits.

Our Building and Grounds crew has taken advantage of the summer months. They have made several significant improvements in our facility. Painting, repurposing of classrooms, team room updates, and revitalizing the main office were only a few of the accomplishments completed by our proud professionals. Their concern over creating a quality campus environment for our students speaks volumes about their dedication to Lakeland.

Our Administrative Team and teacher volunteers put time into restructuring our disciplinary process and procedures for the 2017-18 school year. Our Student Dress Code was also updated as was our definition of “a student in good standing”. These measures were put in place to keep our students focused on their academic success, ensure appropriate behavior, and to promote a positive school climate for all.

With plans to continually improve our growing technology plan, software updates and four new chromebook carts containing 32 computers in each cart were added for teachers and students to access throughout the school year. We have a total of ten carts currently available. We have made necessary upgrades to our computer labs also. We have enlisted more followers to both our Facebook and Twitter accounts as we look to enhance our digital footprint. A dozen new surveillance cameras were added to our school campus as part of our overall security plan.

For the 2017-18 school year, we are looking to continue our forward momentum as one of the premier high schools in northern New Jersey. The number of students who demonstrated academic prowess in Advanced Placement assessment and our continued upward trend on the state mandated PARCC assessment clearly indicates that Lakeland is a center for learning. Our Administrative Team and Faculty are committed to providing a quality and relevant education for our students as we prepare them for success in the future. We encourage a positive interaction as we partner with families and the local community to promote in what we call, “Lancer Pride”.

I look forward to seeing you around campus during the 2017-18 school year.

Respectfully yours with Lancer Pride.

Hugh E. Beattie
